Capitalist Nigger is an explosive and jarring indictment of the black race. The book asserts that the Negroid race, as naturally endowed as any other, is culpably a non-productive race, a consumer race that depends on other communities for its culture, its language, its feeding and its clothing. Despite enormous natural resources, blacks are economic slaves because they lack the 'devil-may-care' attitude and the 'killer instinct' of the Caucasian, as well as the spider web mentality of the Asian. A Capitalist Nigger must embody ruthlessness in pursuit of excellence in his drive towards achieving the goal of becoming an economic

warrior. In putting forward the idea of the Capitalist Nigger, Chika Onyeani charts a road to success whereby black economic warriors employ the ' Spider Web Doctrine ' – discipline, self-reliance, ruthlessness – to escape from their victim mentality. Born in Nigeria, Chika Onyeani is a journalist, editor and former diplomat.

More than any other black leader, H. Rap Brown, chairman of the radical Black Power organization Student Nonviolent Coordinating Committee (SNCC), came to symbolize the ideology of black revolution. This autobiography--which was first published in 1969, went through seven printings and has long been unavailable--chronicles the making of a revolutionary. It is much more than a personal history, however; it is a call to arms, an urgent message to the black community to be the vanguard force in the struggle of oppressed people. Forthright, sardonic, and shocking, this book is not only illuminating and dynamic but also a vitally important document that is essential to understanding the upheavals of the late 1960s. University of Massachusetts professor Ekwueme Michael Thelwell has updated this edition, covering Brown's decades of harassment by law enforcement agencies, his extraordinary transformation into an important Muslim leader, and his sensational trial.

The first, and most obvious questions, which should be asked are, "What are niggers? Who

turned Africans into niggers? When were Africans turned into niggers? Why were Africans turned into niggers, and how were Africans turned into niggers? These are the questions, which this book endeavors to answer. Although this book talks about White Supremacy, and the effects of White Supremacy on Black people, this book is not about White people. This book is not about blaming White people, or having any hatred for White people. "Blame and Hatred are distractions," and when we spend our time blaming and hating White people, we are wasting valuable time; time that could instead be used to improve, and empower us as a people. Black people must awaken that "Spiritual Afrakan" inside of them!

In the late 1980s, gansta rap music emerged in urban America, giving voice to, & making money for, a social group widely believed to be in crisis: young, poor, black men. Quinn probes the origins of the genre, & follows its development, focusing on artists such as Ice Cube & Tupac Shakur.

In this New York Times bestseller, Ijeoma Oluo offers a hard-hitting but user-friendly examination of race in America Widespread reporting on aspects of white supremacy -- from police brutality to the mass incarceration of Black Americans -- has put a media spotlight on racism in our society. Still, it is a difficult subject to talk about. How do you tell your roommate her jokes are racist? Why did your sister-in-law take umbrage when you asked to touch her hair -- and how do you make it right? How do you explain white privilege to your white, privileged friend? In *So You Want to Talk About Race*, Ijeoma Oluo guides readers of all races through subjects ranging from intersectionality and affirmative action to "model

minorities" in an attempt to make the seemingly impossible possible: honest conversations about race and racism, and how they infect almost every aspect of American life. "Oluo gives us -- both white people and people of color -- that language to engage in clear, constructive, and confident dialogue with each other about how to deal with racial prejudices and biases." -- National Book Review "Generous and empathetic, yet usefully blunt . . . it's for anyone who wants to be smarter and more empathetic about matters of race and engage in more productive anti-racist action." -- Salon (Required Reading)

What we see happening in Ferguson and other cities around the country is not the creation of livable spaces, but the creation of living hells. When people are trapped in a cycle of debt it also can affect their subjectivity and how they temporally inhabit the world by making it difficult for them to imagine and plan for the future. What psychic toll does this have on residents? How does it feel to be routinely dehumanized and exploited by the police? -- from *Carceral Capitalism* In this collection of essays in Semiotext(e)'s Intervention series, Jackie Wang examines the contemporary incarceration techniques that have emerged since the 1990s. The essays illustrate various aspects of the carceral continuum, including the biopolitics of juvenile delinquency, predatory policing, the political economy of fees and fines, cybernetic governance, and algorithmic policing. Included in this volume is Wang's influential critique of liberal anti-racist politics, "Against Innocence," as well as essays on RoboCop, techno-policing, and the aesthetic problem of making invisible forms of power legible. Wang shows that the new racial capitalism begins with parasitic governance and predatory lending that extends credit only to dispossess later. Predatory lending has a

decidedly spatial character and exists in many forms, including subprime mortgage loans, student loans for sham for-profit colleges, car loans, rent-to-own scams, payday loans, and bail bond loans. Parasitic governance, Wang argues, operates through five primary techniques: financial states of exception, automation, extraction and looting, confinement, and gratuitous violence. While these techniques of governance often involve physical confinement and the state-sanctioned execution of black Americans, new carceral modes have blurred the distinction between the inside and outside of prison. As technologies of control are perfected, carcerality tends to bleed into society.

Transcript of the documentary film *I am not your Negro*, composed of unpublished and published writings, interviews, and letters by James Baldwin on the subject of racism in America.

This innovative study re-examines the dynamics of race relations in the post--Civil War South from an altogether fresh perspective: field sports. In the late nineteenth and early twentieth centuries, wealthy white men from Southern cities and the industrial North traveled to the hunting and fishing lodges of the old Confederacy -- escaping from the office to socialize among like-minded peers. These sportsmen depended on local black guides who knew the land and fishing holes and could ensure a successful outing. For whites, the ability to hunt and fish freely and employ black laborers became a conspicuous display of their wealth and social standing. But hunting and fishing had been a way of life for all Southerners -- blacks included -- since colonial times. After the war, African Americans used their mastery of these

sports to enter into market activities normally denied people of color, thereby becoming more economically independent from their white employers. Whites came to view black participation in hunting and fishing as a serious threat to the South's labor system. Scott E. Giltner shows how African-American freedom developed in this racially tense environment -- how blacks' sense of competence and authority flourished in a Jim Crow setting. Giltner's thorough research using slave narratives, sportsmen's recollections, records of fish and game clubs, and sporting periodicals offers a unique perspective on the African-American struggle for independence from the end of the Civil War to the 1920s. -- Stephen A.
