Financial analysis is integral to business sustainability in determining an organisation's financial viability and revealing its strengths and weaknesses, a key requirement in today's competitive business environment. In a first of its kind, Financial Statements Analysis: Cases from Corporate India: evaluates the financial performance and efficiency of various corporate enterprises in India, presents actual case studies from eight core sectors (in manufacturing and services) — construction, cement, steel, automobile, power, telecom, banking, and Business Process Outsourcing (BPO), examines the financial statements on parameters such as financial ratios (profitability, solvency, and liquidity), while appraising their operating efficiency, market potential and valuation, and investigates their implications for larger decision-making and policy recommendations. It will be an important resource for scholars, teachers and students of business and management, commerce, finance, and accounting. It will also appeal to corporate trainers, senior executives and consultants in related fields.

This Project book is the original work of the author that was prepared by referring different relevant documents to provide the conceptual and theoretical foundations of financial management theory. It was prepared for the purpose of earning the MBA degree. It discusses the concept of financial performance analysis in case commercial banking sector. In order to achieve the research objectives the study employed financial ratio analysis of Ethiopian Commercial banks during 2008-2012. The background area, methodology, discussion, conclusions and recommendations were stipulated inside the paper. The findings was arrived at by employing T-test hypothesis to check the difference between operational efficiency, liquidity management, assets management, profitability position among selected Commercial banks in Ethiopia.

Master's Thesis from the year 2015 in the subject Economics - Finance, grade: Upper level division2, , course: Thesis, language: English, abstract: The objective of this study is to analyze the performance of two selected commercial banks over a period of six years (2008-2013) in the Rwandan banking sector. For this purpose, CAMEL approach has been used and it is established that I&M Bank and BPR are at the top of the list, with their performances in terms of soundness being the best, but the commercial bank like BPR has taken a backseat and display low economic soundness in comparison. The study found that overall bank performance increased considerably in the first three years of the analysis. A significant change in trend is noticed at the onset of the global financial crisis in 2007, reaching its peak during 2008-2009. This resulted in falling profitability, low liquidity and deteriorating credit quality in the Rwandan Banking sector in general and BPR and I&M Bank particularly.

Bachelor Thesis from the year 2011 in the subject Business economics - Accounting and Taxes, grade: 50%, Oxford Brookes University, language: English, abstract: The aim of this research is to analyze the business and financial performance of Ryanair by focusing on financial and non-financial performance such as financial management, business strategy, future prospects and ways of achieving its objectives in its competitive environment from a stakeholder point of view. In 1985, Ryanair was set up by the Ryan family with a share capital of just £1, and a staff of 25. The company launched its first route in July with daily flights from Waterford in the southeast of Ireland to London Gatwick. Since then, the company has grown considerably and became one of Europe's largest low-fare airlines.

Recently, real and artificial barriers to international transactions have fallen sharply, causing a rise in the overall volume of international trade. East Asia has been particularly affected by the economic stresses and gains derived from deregulation. Deregulation and Interdependence in the Asia-Pacific Region explores the broadly similar experiences of certain economies in the region—China, Hong Kong, Japan, Korea—in dealing with the potentially volatile process of deregulation, and examines the East Asian response to a rapidly transforming economic environment.

The Art of Company Valuation and Financial Statement Analysis: A value investor's guide with real-life case studies covers all quantitative and qualitative approaches needed to evaluate the past and forecast the future performance of a company in a practical manner. Is a given stock over or undervalued? How can the future prospects of a company be evaluated? How can complex valuation methods be applied in practice? The Art of Company Valuation and Financial Statement Analysis answers each of these questions and conveys the principles of company valuation in an accessible and applicable way. Valuation theory is linked to the practice of investing through financial statement analysis and interpretation, analysis of business models, company valuation, stock analysis, portfolio management and value Investing. The book's unique approach is to illustrate each valuation method with a case study of actual company performance. More than 100 real case studies are included, supplementing the sound theoretical framework and offering potential investors a methodology that can easily be applied in practice. Written for asset managers, investment professionals and private investors who require a reliable, current and comprehensive guide to company valuation, the book aims to encourage readers to think like an entrepreneur, rather than a speculator, when it comes to investing in the stock markets. It is an approach that has led many to long term success and consistent returns that regularly outperform more opportunistic approaches to investment.

Critical insights for savvy financial analysts Financial Planning & Analysis and Performance Management is the essential desk reference for CFOs, FP&A professionals, investment banking professionals, and equity research analysts. With thought-provoking discussion and refreshing perspective, this book provides insightful reference for critical areas that directly impact an organization's effectiveness. Access to a website with many of the tools introduced are included with the purchase of the book.

Bachelor Thesis from the year 2017 in the subject Business economics - Accounting and Taxes, grade: 16.5, INES Ruhengeri Institute of Applied Science, course: Accounting, language: English, abstract: This study's main objective was to analyze the role of financial analysis on the financial performance of microfinance institutions in Rwanda under three specific objectives. The first was to assess the indicators of financial analysis in Inyongera SACCO/Cyuve. The second was to analyze the determinants of the financial performance in Inyongera SACCO/Cyuve. The third was to measure the relationship between financial analysis indicators and the financial performance determinants in Inyongera SACCO/Cyuve. The following research questions were used to test the above objectives: What are the indicators of financial analysis in Inyongera SACCO/Cyuve? What are the determinants of financial performance in Inyongera SACCO/Cyuve? What is the relationship between financial analysis indicators and the financial performance determinants in Inyongera SACCO/Cyuve? A descriptive research design was used. Data was collected from both primary and secondary sources using questionnaire, interview and documentation. The results of this research showed that financial revenues of Inyongera SACCO/Cyuve has generated more profit in the period of 2013 where it was 74%, and this year 2013 is experienced year profit where the Inyongera SACCO/Cyuve generated more profit. This was due to the decrease of operating expenses in this year within the reduction in personnel expenses compared to other years. And the 2011 is not more considered because it was the starting year. The recommendations given to Inyongera SACCO/Cyuve were to calculate its expenses, financial ratios to be able to assess the expenses incurred comparing to sales realized and gross margin obtained for a better control of production cost and other expenses. The institution should reduce its costs to maximize profit which is the common goals for all organizations in order to make efficient and effectiveness of its business.
