Mukami Kimathi: Mau Mau Woman Freedom Fighter is the story of the brave wife of one of Kenya's foremost freedom fighters, Field Marshal Dedan Kimathi MaciOri. Kimathi led the Mau Mau war in Kenya's independence struggle against the British colonialists. Mukami's role as a daughter, wife, mother, freedom fighter and leader is varied and very complex. Her story spans pre and post-independent Kenya. Her experiences provide an important complement to existing written literature on Kenya's history. In 2003, the Mwai Kibaki Government lifted the ban put in place by the British colonialists declaring the Mau Mau as terrorists, and recognised Mukami Kimathi and other freedom fighters as national heroes and heroines celebrated on 20th October as Mashujaa Day. This book gives an insight into the role of women freedom fighters and the struggles they faced both during and after the war. It is an incredible story of immense self-sacrifice and love for Kenya. Mukami provides the lens to see the wider picture of women in the independence struggle, the neglect and betrayal of wives of Mau Mau fighters in particular and women in general in Kenya's making. Beyond her role in the independence struggle, Mukami's story has many historical highlights such as time shared with Kimathi, meeting Nelson Mandela and her fruitful and strong relationship with Kenya's human rights movement.

Born in Surrey in 1918, Dennis David had a very distinguished war record, both during the Battle for France and the Battle of Britain. This is his autobiography of his flying career until he retired in 1967.

Foreword by Ward Churchill; cover design by Sue Coe The first anthology of writings on the history, ethics, politics and tactics of the Animal Liberation Front, Terrorists or Freedom Fighters? features both academic and activist perspectives and offers powerful insights into this international organization and its position within the animal rights movement. Calling on sources as venerable as Thomas Aquinas and as current as the Patriot Act--and, in some cases, personal experience--the contributors explore the history of civil disobedience and sabotage, and examine the philosophical and cultural meanings of words like "terrorism," "democracy" and "freedom," in a book that ultimately challenges the values and assumptions that pervade our culture. Contributors include Robin Webb, Rod Coronado, Ingrid Newkirk, Paul Watson, Karen Davis, Bruce Friedrich, patrice Jones and others.

There were a lot of people in America who were afraid, not knowing what was going to happen to them. People were spending most of their savings, trying to stock up on food and bullets. Crime was going up, and the police were busy. Therefore, everyone who want ready was trying their best to get ready. These are the same people that thought the survival groups were crazy people. But now they found themselves in a bind. The grocery stores couldnt keep their shelves stocked fast enough. Food prices, guns, ammo, and survival gear have skyrocketed. The police were harassing people who were carrying weapons or guns. They had sworn to uphold and defend the constitution, but they were now breaking the law by not upholding the oath.

A group of White Nationalist's in the Pacific Northwest finally takes a stand against the New World Order. This is a fictional account of what white men and women can accomplish when they set out to protect their heritage and way of life. Destined to be billed as the modern Turner Diaries, it should prove to be an inspiring read. The Northwest Freedom Fighters, The Awakening, the first in the Northwest Freedom Fighter series, shows a real life scenario that can be accomplished by a few brave souls with a realistic budget. This story delves into the 'tactical' side of the struggle. Most similar books, though excellent reading and highly recommended, show the "strategic" side of the goal. The iron will to win and the means to accomplish this are all brought to life. This adventure will be unlike any other you will embark on.

One of the Washington Post's 20 Books to Read This Summer A riveting history of the epic orbital flight that put America back into the space race. If the United States couldn't catch up to the Soviets in space, how could it compete with them on Earth? That was the question facing John F. Kennedy at the height of the Cold War—a perilous time when the Soviet Union built the wall in Berlin, tested nuclear bombs more destructive than any in history, and beat the United States to every major milestone in space. The race to the heavens seemed a race for survival—and America was losing. On February 20, 1962, when John Glenn blasted into orbit aboard Friendship 7, his mission was not only to circle the planet; it was to calm the fears of the free world and renew America's sense of self-belief. Mercury Rising re-creates the tension and excitement of a flight that shifted the momentum of the space race and put the United States on the path to the moon. Drawing on new archival sources, personal interviews, and previously unpublished notes by Glenn himself, Mercury Rising reveals how the astronaut's heroics lifted the nation's hopes in what Kennedy called the "hour of maximum danger."
