How sound leaves a fundamental imprint on who we are. Making sense of sound is one of the hardest jobs we ask our brains to do. In *Of Sound Mind*, Nina Kraus examines the partnership of sound and

brain, showing for the first time that the processing of sound drives many of the brain's core functions. Our hearing is always on--we can't close our ears the way we close our eyes--and yet we

Donald Trump's

several
crimes--and why
they failed.
Donald Trump's
campaign

alarmed enough
by the
president's
actions that
they alerted
senior
government
officials and
ignited the

process. Yet

despite all
this, a years-
long inquiry led
by special
counsel Robert
Mueller, and the
third
impeachment of a
president in
American
history, Donald
Trump survived
to run for re-
