The first historical heroic epic authored by a woman, Scanderbeide recounts the exploits of fifteenth-century Albanian warrior-prince George Scanderbeg and his war of resistance against the Ottoman sultanate. Filled with scenes of intense and suspenseful battles

contrasted with romantic episodes, Scanderbeide combines the action and fantasy characteristic of the genre with analysis of its characters' motivations. In selecting a military campaign as her material and epic poetry as her medium, Margherita Sarrocchi (1560?–1617) not only engages in the masculine subjects of political conflict and warfare but also tackles a genre that was, until that point, the sole purview of men. First published posthumously in 1623, Scanderbeide reemerges here in an adroit English prose translation that maintains the suspense of the original text and gives ample context to its rich cultural implications.

International Bestseller "Quite simply the best guide to the global economy today."
—Fareed Zakaria Shaped by his twenty-five years traveling the world, and enlivened by encounters with villagers from Rio to Beijing, tycoons, and presidents, Ruchir Sharma's *The Rise and Fall of Nations* rethinks the "dismal science" of economics as a practical art. Narrowing the thousands of factors that can shape a country's fortunes to ten clear rules, Sharma explains how to spot political, economic, and social changes in real time. He shows how to read political headlines, black markets, the price of onions, and billionaire rankings as signals of booms, busts, and protests. Set in a post-crisis age that has turned the world upside down, replacing fast growth with slow growth and political calm with revolt, Sharma's pioneering book is an entertaining field guide to understanding change in this era or

"THE CODE OF LEKE DUKAGJINI is a great cultural treasure, comparable to the chapters of The Old Testament." "It provides deep insights into the ancient society of the Albanians, their somber dignity & their magnificent sense of honor."--David Binder, The New York Times. "This legal system was established & passed on to future generations as a common law by Leke Dukagjini, a co-fighter of the legendary Skenderbeg." "The 'Besa' or the 'word of honor' as stated in THE CODE OF LEKE DUKAGJINI which means peace & protection to those whom it is given, has become today an important fighting tool in the political struggle of Kosovo's Albanians against Serb oppression."--Victor Meier, The Frankfurter Allgemeine Zeitung. "The legal Code of the Albanians known by them for a thousand years, is one of the most original in the history of mankind. Among the basic pillars of this code are the equality of men before the code & the non-abuse of justice." "The entire essence of the legal code of the Albanians is an unparalleled rigorous respect for this basic principle: non-violation of the dignity of a man- his honor, home, & life."--Ismail Kadare, Albanian writer.

The burnt-red badlands of Montana's Hell Creek are a vast graveyard of the Cretaceous dinosaurs that lived 68 million years ago. Those hills were, much later, also home to the Sioux, the Crows, and the Blackfeet, the first people to encounter the dinosaur fossils exposed by the elements. What did Native Americans make of these stone skeletons, and how did they explain the teeth and claws of gargantuan animals no one had seen alive? Did they speculate about their deaths? Did they collect fossils? Beginning

in the East, with its Ice Age monsters, and ending in the West, where dinosaurs lived and died, this richly illustrated and elegantly written book examines the discoveries of enormous bones and uses of fossils for medicine, hunting magic, and spells. Well before Columbus, Native Americans observed the mysterious petrified remains of extinct creatures and sought to understand their transformation to stone. In perceptive creation stories, they visualized the remains of extinct mammoths, dinosaurs, pterosaurs, and marine creatures as Monster Bears, Giant Lizards, Thunder Birds, and Water Monsters. Their insights, some so sophisticated that they anticipate modern scientific theories, were passed down in oral histories over many centuries. Drawing on historical sources, archaeology, traditional accounts, and extensive personal interviews, Adrienne Mayor takes us from Aztec and Inca fossil tales to the traditions of the Iroquois, Navajos, Apaches, Cheyennes, and Pawnees. Fossil Legends of the First Americans represents a major step forward in our understanding of how humans made sense of fossils before evolutionary theory developed.
