Ancient Maya Commerce presents nearly two decades of multidisciplinary research at Chunchucmil, Yucatan, Mexico—a thriving Classic period Maya center organized around commercial exchange rather than agriculture. An urban center without a king and unable to sustain agrarian independence, Chunchucmil is a rare example of a Maya city in which economics, not political rituals, served as the engine of growth. Trade was the raison d'être of the city itself. Using a variety of evidence—archaeological, botanical, geomorphological, and soil-based—contributors show how the city was a major center for both short- and long-distance trade, integrating the Guatemalan highlands, the Gulf of Mexico, and the interior of the northern Maya lowlands. By placing Chunchucmil into the broader context of emerging research at other Maya cities, the book reorients the understanding of ancient Maya economies. The book is accompanied by a highly detailed digital map that reveals the dense population of the city and the hundreds of streets its inhabitants constructed to make the city navigable, shifting the knowledge of urbanism among the ancient Maya. Ancient Maya Commerce is a pioneering, thoroughly documented case study of a premodern market center and makes a strong case for the importance of early market economies in the Maya region. It will be a valuable addition to the literature for Mayanists, Mesoamericanists, economic anthropologists, and environmental archaeologists. Contributors: Anthony P. This new method for guitar is a collection of progressive arpeggios written with a contemporary sound. It is devoted to beginners who want to approach the world of acoustic fingerstyle guitar with enjoyable learning, thus avoiding boredom in the study of old classical guitar methods. The method can be used both with a teacher and by the self-taught; in fact free YouTube video tutorials are available for each arpeggio, in separate and closeup views of both hands. As you progress in the study, you will find that each arpeggio is not just a simple exercise, but is actually a pleasant mini-composition designed to satisfy the modern "ear" of the 21st century student. Learning and fun are assured; good study!
