The Art of Leadership, 6th edition, is based on two ideas: 1. Leadership will take place to the extent the leader cares about the work to be done. Equally important, the leader must care about people. Neither of these qualities is sufficient without the other, and neither can be false. People know when the leader cares. When the leader is committed to the task and is concerned about people, these qualities serve as magnets and motivators to followers, and their potential for achievement becomes enormous. 2. Leadership is an art that can be developed through mastery of nine key areas of success. The successful leader must possess knowledge and skills in the following areas: understanding leadership variables, the power of vision, the importance of ethics, the empowerment of people, leadership principles, understanding people, multiplying effectiveness, developing others, and performance management. The difference between most other leadership texts and the Art of Leadership, 6th edition, can be compared to the difference between a lecture and seminar. Although both are good educational vehicles, the lecture is better for conveying large amounts of information, while the seminar is better for developing skills and attitudes. A good lecture is interesting and builds knowledge, while a good seminar is stimulating and builds competency. Without sacrificing either theoretical foundation or important content, the 6th edition of The Art of Leadership emphasizes the interactive, seminar approach to learning.

The proven model that offers powerful and elegant strategies for leaders How Great Leaders Think: the Art of Reframing uses compelling, contemporary examples to show how more complex thinking is the key to better leadership. Leaders who understand what's going on around them see what they need to do to achieve the results they want. Bolman and Deal's influential four-frame model of leadership and organizations—developed in their bestselling book, Reframing Organizations: Artistry Choice and Leadership—offers leaders an accessible guide for understanding four major aspects of organizational life: structure, people, politics, and culture. Tapping into the complexity enables leaders to decode the messy world in which they live, see more options, tell better stories, and find strategies that are more effective. Case examples of leaders like Jeff Bezos at Amazon, Howard Schultz at Starbucks, Tony Hsieh at Zappos, Ursula Burns at Xerox, and the late Steve Jobs at Apple provide concrete lessons that readers can put to use in their own leadership. The book's lessons include: How to use structural tools to organize teams and organizations for better results How to build motivation and morale by aligning organizations and people How to map the terrain and build a power base to navigate the political dynamics in organizations How to develop a leadership story that shapes culture, provides direction, and inspires commitment to excellence

Many people think leadership is a higher calling that resides exclusively with a select few who practice and preach big, complex leadership philosophies. But as this practical book reveals, what's most important for leadership is principled consistency. Time and again, small things done well build trust and respect within a team. Using stories from his time at Netscape, Apple, and Slack, Michael Lopp presents a series of small but compelling practices to help you build leadership skills. You'll learn how to create teams that are highly productive, highly respected, and highly trusted. Lopp has been speaking and writing about this topic for over a decade and now maintains a Slack leadership channel with over 13,000 members. The essays in this book examine the practical skills Lopp learned from exceptional leaders—as a manager at Netscape, a senior manager and director at Apple, and an executive at Slack. You'll learn how to apply these lessons to your own experience.
